SUMMARY OF WTTA RULE & PROCEDURE CHANGES

SPRING 2021 SEASON

1) **Spring 2021 will once again be a "non advancing" season.** This means team results from this season will not be used to move teams up or down a flight. When we resume normal operations (hopefully in Fall 2021) teams will be placed where they were at the beginning of the Spring 2020 season.

2) There will be **NO sub limits or penalties** for any flight.

3) **Points WILL be awarded for defaults.** If BOTH teams agree not to play a match, then the double default will be used. But if one team is prepared to play and the other team defaults, then the team who was prepared to play will receive points for that line (or lines)

4) **The double default rule will not be imposed**.

5) **The deadline for making up all matches will be 14 days after the end of the season**. However, teams are strongly encouraged to make up matches on the earliest possible date.

SPECIAL COVID RULES AND PROCEDURES

1) **All players, both roster and sub, must sign a Covid waiver form before playing**. Captains must collect waivers from their roster players and indicate the receipt by checking the waiver box on their roster on the website. Sub waivers will be collected by captains and entered by the Club Rep on the website.

2) **Current CDC guidelines will be followed regarding quarantines**. Any player who is either diagnosed with Covid 19 or who has been exposed to Covid 19 will follow CDC current guidelines for quarantine before participating in any WTTA activities. Current guidelines are:

    a) **If tested Positive**: 10 day quarantine assuming all symptoms are gone.

    b) **If Exposed**: 10 day quarantine, or 7 days with a negative test, assuming no symptoms.

3) **Any player who tests positive must immediately contact their captain and club** rep who will then assist in contacting any players who may have been exposed during WTTA activities.

4) Any player who fails to follow quarantine procedures will be banned from WTTA play for the remainder of the season.
